In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhow, Dysentery, Incipient Consumption, Scrothlous Tuberculosis, Salt Kheum, Mismeustruation, Whites, Chlorosis, Liver Cor.plainty, Chronic Headnohes, Rhommatism, Intermittent Fevers, Fimples on the Face, &c.

In case of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render or edible. Invalids so long hed ridden as to have become forgotten in their own neighborhooda, have suddenly reappeared in the husy world as if just returned from protracted travel in a distant land.—Some very signal instances of this kind are attested of female Sufferers, conscienced victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic arersion to air and exercise for which the physician has no came.

This is a somewhat singular work by an mentric but gifted author. The Ray, J. II. Intraham, L. L. D. has become pretty known in the "world of letters" amathor of an endless number of ficitious. natiter of that class of works was well esshished some years ago. Of late, however, the Reversid gentleman has changed his field of labor, and appears before the dublic at mulbox of a series of fineratives based upon Hely Writ, of which the presont work is the third in order of publication. The Bible has bitherto been a mine weldom explored by literary characters, and the author following a path little travelled. has shown much originality in the conis seption of his plan, and the style of his the book, and hope it will have the dect to turn those who have read it to the Bible to purues with fresh interest the historical passages upon which the marrative is based. It is neatly gotten up and Mustrated with steel and wood engravings.

There is much in Reta which makes us forget that we are reading a mere flotion and imagine that we are dealing with things of fact. Police Robberies.

The robbery of Grant & Co's atore, on Washington Street, Boston, three weeks ago, of about nine thousand dollars worth of silks, which were recovered with other recent robberies, are charged upon members of the police force, and an investigation has resulted in the arrest of Isaac B. Hutchins and J. H. Goodwin, of the Second station, and Jas. M. Crillis, an ex-policemen. Rumors are current of several other is licemen being implicated in store robbeiles. An investigation has been commenced before the Mayor, and at a late hour Satur-day night seven officers were held to answer criminal prosecutions, and three others were temporarily suspended from duty. The charges embrace petit larcenies only. The report that the accused were engaged in the late robbing of Grant & Co. silk in the store being unfounded.

The prisoner will probably be sentenced on Thursday.

Mr. Campbell, a banker, of Devonport, Illinois, lately committed suicide by shooting. The Keokuk Gale City says the act was the result of excitement on the subject of Spiritualism. The deceased shorty be-fore his ocath, not only picked out his grave, but had a sait of clothes unde to wear in the other world. These were never wear in the other world. These were never put on until after his death, and he was buried in them. His spiritual brethren have been talking with him since his decease, and he expresses himself antisfied with the change. The impression in Devonport is said to be that, although the decased might have been influenced by the fact of having security debts to pay, yet the main idea was that he could get along more comfortably by going into the other world.

THE LITCLE SLEEPER

Bhe sleeps, but the soft breath
No longer sitr her golden hair,
The robber hand of Deshi
Mas stolen thither unaware;
The lovely edifies
Is still as beautiful and fair,
But movernfully we miss
The gentle hab that that sojourned there.

With stealthy pase he crept,
To the guest chamber where it lay—
That angel thing—and slept,
And watepered it to come away;
He broke the fairy lute
That light with laughter used to play,
And self all dall and mute
The silver atrings that tinkled forth so gay.

Then with his floger cold

He shut the glassing windows too;
With fringe of drooping gold;
He darkened the small panes of blue.
Sheer from the marble floor
He awept the flowers of crimson hue;
He closed the levery door,
And o'er the porch the rosy curtains drow.

The angel-quest is gone;
Upon the spoiler's dark wing horne;
The road she joinneys on,
Wends overmore, without return.
To ruin and decay
The fairy palace now meet turn,
For the sun's early ray
Upon its walls and windows thall not play,
Noy light its golden roof to morrow morn.

LOCAL ITEMS;

Mn. Editok :—In your paper of yesterday you allude to the condition of the side-walk, in front of my estate on Thames Street, which gives me an opportunity to state pub-licly in defence—That previous to the recent change in the grade of the street this sidewalk was in good condition—that it was reduced to its present condition against my wishes, and much to the injury of my estate by the nity government, over whom, I have no conthat since the damage was done, I have on two occasions sent notice to the Mayor or Street Commissioner, that if the city authorities did not intend to replace the walk to the same condition they found it, I would cause the same to be done upon their making an official requisition on me to that effect. You are mistaked in supposing that there is at present any difficulty between the city government and my solf in regard to this side walk. The Statute provides ample redress for all the damages I have sustained, and the City Council under that Statute have appointed a judicious committen to ascertain and liquidate said damage. No one is more gratified with improvements on the streets than I am, and none more willing to contribute for any judicious expenditure of money for this purpose, and, but for a misorable attempt on the part of the Mayor and City Marshal, to make use of their official position, apparently to gratify a private and cowardly malevolence, in a matter somewhat similar to this, and I am sought to be made the victim, I might have long since, and cheerfully at my own expense repaired the above damage, and thus saved to the public the inconvenience which for six months they have suffered at the HENRY BULL hands of their rulers

Tilber's Branch News Depor .- Yesterday morning this cosy and nost establishment next south of Mesers. Newton Brothers, was re-opened for the season. We have always had a ourlosity to know whether Mr. Tilley's maintaining two establishments was a paying operation; but as that gentleman is among our shrowdest business men, we supposed it must be or else the scheme would be abandaned. Mr. William P. Clarke is to have the entire charge, and his well known integrity, prompt usiness habits and gontlemanly courtesy are

Lovers of Nature's unique and platur eque developements will be gratified by the specting a moss-covered roof opposite Messrs. Percy & Stevens, in Mill Street. WATER OIL:

HEBARD'S PATENT WATER OIL, to small and smoke of the Coal Oils, is the greatest artificial light yet discovered. It gives a steady, clear, soft light and does not choke the lungs with foreign matter, such as results generally from using Rosm and Kerosone Oils or. Coal Gas.

The flame can be regulated to afford any amount of light desired, from that of the large noinr lamp to the feeblest taper. We therefore claim for the Water Oil the following as sume of its leading characteristics:—

1. It emis no foetic dodr.

2. It will burn in Kerosone Lamps without sherafore the most delicate fabric.

4. It is essentially an Oil, and yet will not grease the most delicate fabric.

5. The flame is more purely whitcand soft than that of any other Oil or Fluid. Therefore least injurious to the eyes.

6. The wick may be raised to a great height and breadit, giving an immense illuminating power without producing smake.

7. Ha great specific gravity cenders it not only safe, but the most economical Oil in existence.

8. It does not crisp the wick like Oils, nor deposite any carbonaceous fuel upon it.

9. It does not waste, as every globule of

deposite any carbonaccous fuel upon it.

9. It does not waste, as every globule of Oil and every particle of Water is entirely consumed.

The following is the Certificate from Dr. Hayes, on the illuminating power of the WATER OIL as compared with the best sriticle of Kerosene Oil in the market:—

16 Boyleyon Strawt, 14th Feb. 1860.
Results of comparison of the light of two lamps, one fed with Kerosene Oil, and the other with Water Oil, furnished by B. F. Hebard.

The Kerosene Lamp when lighted soon increased its volume of flame, so as in present a duil halo above the brilliant part; it was adjusted to the highest point without producings smoke. On lighting the lamp fed with Water Oil, it was found that its flame was liminous and might he much extended, without the production of smoke. A definite point perfectly practical, was reached, when the Kerosene Lamp, belong 103, the Water Oil Lamp afforded the light of 132, without a trace of smoke emitted. The Water Oil pormits of any diminution in the flame without loss of economy.

Respectfully,

A. A. HAYES, M. D., State Assayer.

STRANGERS AND TRAVELERS. To avoid and escape Imposition of Foreign and Native Qucks, *more numerous* in Providence than most other large cities.

DR: CUDWORTH

Proudly refers to Professors and Physicialia; many of whom consult him in critical cases, because of his acknowledged skill and rejutation, attained through so long experience, practice and observation. AFFLICTED AND UNFORTUNATE!

Be not robbed and add to your sufferings in being deceived by the lying boasts, misrepre-sentations, folse promises and pretensions of FOREIGN AND NATIVE QUACKS

who know little of the nature and character of Special Diseases and less as their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated on the proposition of the control of the c brated physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS, QUACK NOSTRUM MAKERS,
Through false Certificates and References,
andrecommendations of their medicines by
the dead, who cannot expose or contradict
them: and who, besides, to further their imposition, copy from Medical books much that
is written of the qualities, and effects of
different herbs and plants, and ascribe all the
same to their Fills, Extracts, Specifics, &c.,
most of which, if not all, contain Mercury,
because of the ancient belief of its "curing
everything," but now known to "kill more
than is cured," and those not killed, constitutionally injured for life.

IGNOBANCE OF CHACK DOCUMES

IGNORANCE OF QUACK DOCTORS AND NOSTRUN MAKERS.

AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other temedy, he relies upon Mercury, and gives it to all his patients in Pills, Drope, &c.; so the Nostrum maker, equally ignorant, adds it to his so-called Extract, Specific, Antidote, &c.; re, lying upon its effects in curing a few in a hundred, it is trumpated in various ways througheat the land; but, dass; nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer months or years, until relieved or cured by competent Physicians.

CALL.

The subscribers lake this method of returning thanks to their many patrons for the increased orders from year to year, for their lykers Valler Franklin Coal.

The mines from which this Coal is taken were never in so promising a condition as at present, and such improvements have been made for pigparing and surfeuing it as warrant us in saying that we believe the Coal will be shipped in better order than ever before.

The superior quality of the Franklin Coal having become fully established; the demand has rapidly increased, and an evidence of its great popularity is the fact that several dealers have adopted its mame in full or in part; thereby hoping to introduce other kinds of inferior Coal by which the jubble have ofted been deceived. ter been deceiven.
